

BACHELOR OF SCIENCE (HONS.)

ECO-TECHNOLOGY

Eco-technology refers to the application of environmentally friendly technologies for the development and improvement of innovative products, services and processes to promote sustainability. The B. Sc. (Hons.) Eco-Technology programme provides students with an understanding of how to plan, design and develop strategies which allow improvement in the efficiency in the selection and use of materials to produce innovative products while minimising harm to the environment.

CAREER OPPORTUNITIES

- Eco-Technologist
- Production Engineer
- Process Engineer
- R&D Scientist
- Industrial Executive and Manager
- Entrepreneur
- Academician

SUBJECTS OFFERED

- Eco-Products Technology
- Eco-Services Technology
- Engineering Design of Eco-Materials and Products
- CAD/CAE/CAM Technology of Eco-Products
- Occupational Safety and Health: Industrial Safety
- Sustainable Green Building
- Lean Technology, Life Cycle Assessment
- Branding, Packaging and Eco-Labeling
- IR4.0 electives - Management/Multimedia and many more....

ENTRY REQUIREMENTS

- **Diploma Graduates**
 - CGPA 2.0 (UiTM) or CGPA 2.8 (other institutions) - Diploma from any Applied Sciences or Engineering field
- **Matriculation/Asasi leavers**
 - CPA 2.30 and above - Gred C in any 3 subjects
- **APEL**
 - Pass MQA / 7 years work experiences / Pass faculty level interview / ages not less than 21 years old (when apply)
- **Minimum MUET requirement - Band 2**

Kindly refer to the minimum requirements.
